PROFESSIONAL SUMMARY

Software Developer with 6 months of professional experience in building enterprise web applications and AI-powered solutions. Skilled in Java, Spring Boot, React.js, MySQL, Python, FastAPI, Generative AI, Agentic AI, LLM Integration, Ollama, MCP, and Retrieval-Augmented Generation (RAG). Passionate about developing scalable software, integrating AI into real-world applications, and solving complex business problems.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript, HTML5, CSS3
- **Backend:** Spring Boot, Express.js, REST APIs, FastAPI
- **Frontend:** React.js, Responsive Web Design
- **AI Technologies:** Generative AI, Agentic AI, AI Agents, Large Language Models (LLMs), Prompt Engineering, RAG, MCP, Pydantic AI, Ollama
- **Databases:** MySQL, MongoDB, ChromaDB
- **Developer Tools:** Git, GitHub, VS Code, Postman, Apache Tomcat, Eclipse
- **Core Concepts:** OOP, REST APIs, MVC Architecture, Data Structures, Problem Solving

PROFESSIONAL EXPERIENCE

Junior Software Developer

Jan 2026 – Present

WBC Software Lab

- Developed enterprise web applications using Java, Spring Boot, React.js, and modern web technologies.
- Built and integrated REST APIs with frontend applications to deliver scalable business solutions.
- Worked on AI-powered features using Large Language Models (LLMs), Agentic AI, RAG, and MCP integrations.
- Designed, developed, and debugged application modules while improving performance and reliability.
- Collaborated with QA teams and cross-functional stakeholders for testing, deployment, and software delivery.

PROJECTS

AI Portfolio Assistant

React.js | FastAPI | Ollama | MCP

- Developed an AI-powered portfolio with an intelligent chatbot.
- Integrated local LLMs using Ollama.
- Built AI agents capable of answering recruiter questions.
- Implemented responsive UI and real-time AI interaction.

Heart Disease Prediction Using Hybrid Machine Learning

Python | CNN | ResNet | XGBoost

- Built a hybrid ML/DL system for heart disease prediction.
- Integrated clinical, ECG, X-ray and echocardiogram datasets.
- Applied Random Forest, CNN, ResNet and XGBoost models.
- Improved prediction accuracy using multimodal learning.

School Management System

Spring Boot | Java | MySQL

- Developed a complete school management application.
- Implemented student management, attendance, assignments and fee modules.

- Designed REST APIs with MySQL backend.

E-Book Management System

Java | JSP | Servlet | MySQL

- Developed a full CRUD web application.
- Implemented secure login and session management.
- Deployed using Apache Tomcat.

EDUCATION

B.E. Electronics and Communication Engineering

N.P.R College of Engineering and Technology

2021 – 2025

CGPA: 7.1

CERTIFICATIONS

- Java Full Stack Development – Greens Technology
- React Projects – Infosys Springboard
- AI for Beginners – HP LIFE
- Data Science & Analytics – HP LIFE

HIGHLIGHTS

- Developed AI-powered applications using LLMs and Agentic AI.
- Built full-stack web applications with Java, Spring Boot and React.js.
- Experienced in REST API development and AI integration.
- Deployed multiple projects on Netlify and GitHub.

LANGUAGES

Tamil | English
